

FOREVER Homes

Making your GHI home your Forever Home

A Forever Home allows people to live in one house through changing life stages.

Have you modified your GHI home to accommodate your changing needs?

The Architectural Review Committee (ARC) would like to compile and share with GHI members descriptions, floor plans, photos, sketches, etc. of adaptations members have made. An archive of these ideas will be created and available to all members. Contributing members' privacy will be maintained.

Two bedroom brick home with 9 ft x 7 ft addition

Service side entrance addition

Powder room in addition

Addition interior: extra closets on left, powder room on right
